New apartments boost affordable housing

The Queensland Government has partnered with the construction industry to deliver more affordable and long-term rental housing in Brisbane's inner-city through the government's Build-to-Rent Pilot Project.

Developments by Frasers Property Australia in Fortitude Valley and Mirvac in Newstead will welcome renters into almost 750 apartments with up to 240 dwellings to be provided at discounted rents. In total, the 2 Build-to-Rent developments will create more than 500 jobs during construction, with the long-term management of the apartment buildings to support further employment opportunities.

Boosting affordable, inner-city housing will also provide more options for workers such as nurses and hospitality staff to live closer to their employment while meeting the city's growing accommodation demand in the lead up to the Brisbane 2032 Olympic and Paralympic Games.

Brisbane's northside will receive a boost in social and affordable housing in Chermide and Redcliffe with the development of 118 apartments through the government's \$1 billion Housing Investment Fund. The projects will support a combined 128 construction jobs in South East Queensland.

New Redlands hospital to deliver improved services

A new Redlands health facility is being constructed as part of the Queensland Government's \$280 million commitment to build 7 satellite hospitals across the south-east corner and deliver improved healthcare services to growing local communities.

Satellite hospitals will start to be operational from 2023. The focus will be on day therapy and care for minor injuries and illness, helping to free up capacity in nearby hospitals.

The Australian-first Satellite Hospitals Program is designed to improve healthcare services in rapidly growing communities while easing pressure in nearby hospitals. It will enable Queenslanders to access healthcare facilities closer to home within the communities of Redlands, Gold Coast (Tugun), Brisbane South (Eight Mile Plains), Caboolture, Ipswich (Ripley), Pine Rivers (Kallangur) and Bribie Island. The program is supporting up to 773 construction jobs across the 7 sites.

At a Glance

Total health funding in 2022-23	\$23.6B	New jobs since COVID-19 began – the largest rise in the nation	206,000

Good jobs. Better services. Great lifestyle.

More jobs in more industries

Good, secure jobs in our traditional and emerging industries

Queensland is building on its advantages in traditional and emerging industries that support good, secure jobs. The Queensland Government's economic strategy will help Queensland businesses to take advantage of these opportunities and grow the economy.

Better services

Deliver even better services right across Queensland

A growing economy will allow the government to deliver better services across the state, including in education, justice and social services. High-quality services improve the lives of Queenslanders and help everyone to participate fully in our economy and our community.

Protecting Queenslanders' lifestyle

Protect and enhance our Queensland lifestyle as we grow

Our great Queensland lifestyle will be protected while the economy grows. The Queensland Government is investing in crucial infrastructure to support our growing population, reducing cost-of-living pressures and taking care of our natural environment.
