## 1 Bwgcolman Community School

\$9 million in 2023-24 out of a \$11.4 million total spend to upgrade the administration building, including visiting specialist offices and a conference room, and to construct a new home economics building, supporting food studies and joint school and community events. The adjacent landscaped area incorporates dance and event areas and a yarnning circle for joint community use. The project is supporting an average of 11 jobs across 3 years from 2021-22 to 2023-24.

## 3 Channel capacity upgrade

\$60.7 million in 2023-24 out of a \$251.2 million total spend to widen the existing shipping channels. This will allow access for larger vessels to visit the port, providing efficiencies and supporting future trade growth in the region. To date the channel capacity upgrade has supported employment for more than 1,800 people with more than 1,100 of those residing within the Townsville local government area.

## 5 Charters Towers Hospital

\$7 million in 2023-24 out of a \$9.7 million total spend for infrastructure initiatives including the establishment of a renal dialysis treatment service, the installation of a CT scanner including upgrade of medical imaging services, upgrades to the Central Sterilising Services, and the upgrade of electrical capacity to the hospital. These initiatives will support the delivery of contemporary health care services to the Charters Towers community, allow more patients to be treated closer to their home and reduce the number of patients requiring transfer to Townsville University Hospital, which will in turn positively impact the availability of beds at Townsville University Hospital.

## 2 Kidston Hydro 275 kilovolt Transmission Network Connection

\$79.2 million in 2023-24 out of a \$258.2 million total spend connecting the 250 megawatt Kidston Clean Energy Hub to the national electricity grid to help meet Queensland's renewable energy targets. The project will support up to 400 jobs and Powerlink has engaged over 20 local suppliers. Powerlink is working closely with principal contractors to maximise local employment and procurement opportunities, as well as sub-contracting opportunities which include vegetation, access works, machine and equipment hire. Powerlink is working with 3 local shires/councils regarding community investment, safety, traffic minimisation, biosecurity management and repair.

## 4 Townsville University Hospital

\$58.2 million in 2023-24 out of a \$591.2 million total spend for a range of enhancements at the Townsville University Hospital site, including construction of a new clinical services building, hybrid theatre, expansion of the Outpatients Department and the completion of a new Acute Medical Receiving Unit (Australian Government funded). It includes the \$530 million Townsville University Hospital Expansion project, which will deliver an additional 143 beds. The project will support more than 1,270 construction jobs and is expected to be completed by second half of 2026. Part of the Capacity Expansion Program.

## 6 Burdekin Falls Dam improvement and raising projects - planning

\$19.5 million in 2023-24 to continue planning and commence pre-construction activities for the Burdekin Falls Dam improvement and raising project. As part of reinvesting in the regions, \$440 million is allocated toward improving and raising Burdekin Falls Dam by 2 metres. This is on top of the Queensland Government's existing \$100 million commitment. Raising the dam by 2 metres will create an additional 150,000 megalitres of water supply, support long-term economic development in North Queensland, including in emerging industries such as hydrogen, and generate around 350 jobs during construction.

## Australian-first demonstration facility for critical minerals

The Queensland Government is investing \$75 million to establish common user infrastructure in Townsville to support the development, extraction and production of critical minerals. This Australian-first demonstration facility will support Queensland's significant growth potential in the rapidly emerging critical minerals industry.

The new Queensland Resources Common User Facility will be located at the Cleveland Bay Industrial Park. It will initially trial production processes for vanadium, but the overall design will include equipment that can be adapted to process a range of other critical minerals and rare earths in the future.

The facility aims to accelerate the development of commercial mining projects, promote investment in advanced mineral manufacturing opportunities and enable development of supply chain and supporting industries in Queensland. It's a key action under the Queensland Resources Industry Development Plan and supports the delivery of the *Queensland Energy and Jobs Plan*.

# Good jobs. Better services. Great lifestyle.

## More jobs in more industries

### Good, secure jobs in our traditional and emerging industries

Queensland is building on its advantages in traditional and emerging industries that support good, secure jobs. The Queensland Government's economic strategy will help Queensland businesses to take advantage of these opportunities and grow the economy.

## Better services

### Deliver even better services right across Queensland

A growing economy will allow the government to deliver better services across the state, including in education, justice and social services. High-quality services improve the lives of Queenslanders and help everyone to participate fully in our economy and our community.

## Protecting Queenslanders' lifestyle

### Protect and enhance our Queensland lifestyle as we grow

Our great Queensland lifestyle will be protected while the economy grows. The Queensland Government is investing in crucial infrastructure to support our growing population, reducing cost-of-living pressures and taking care of our natural environment.
