1. OVERVIEW

KEY POINTS

- Capital outlays in 2010-11 are estimated to be \$17.091 billion.
- Capital outlays will support approximately 106,000 full-time jobs in Queensland.
- The Government's ongoing commitment to regional and rural Queensland is reflected in this Budget. Over 57% of expenditure will occur outside the Brisbane Statistical Division, including \$252.8 million to continue redevelopments at Cairns, Mackay, Mount Isa, Rockhampton and Townsville Hospitals, \$37.6 million for completion of the duplication of the Forgan Bridge in Mackay, and \$24 million to continue the redevelopment of the Cairns campus of the Tropical North Queensland Institute of TAFE.
- In 2010-11 there will be capital outlays of \$7.325 billion for transport and main roads including \$197 million to continue construction of the Northern Busway, \$155.6 million to continue construction of the Springfield rail line, \$88 million to commence the extension of the Port of Brisbane Motorway, and \$20.3 million to continue construction of cycle links to enhance the cycle network in South East Queensland.
- In partnership with the Australian Government, capital outlays of \$1.086 billion for housing and homelessness services including \$699.8 million from the National Partnership Agreement, and \$1.51 billion for education and training including \$703 million from the Australian Government's Building the Education Revolution program.
- The capital outlays of the Public Non-financial Corporations sector, including Government-owned corporations, constitute 41% of total outlays in 2010-11, including \$3.131 billion in the energy sector.
- The Government will continue to invest in water infrastructure, with capital outlays of \$753.8 million in 2010-11, including \$202.2 million for the Northern Pipeline Interconnector, \$105 million for the Wyaralong Dam, and \$90 million to complete the Hinze Dam upgrade.

INTRODUCTION

This capital statement presents an overview of proposed capital outlays by the Queensland Government in 2010-11, as well as a summary of the Government's approach to infrastructure provision. Capital outlays in 2010-11 are estimated to be \$17.091 billion, net of a capital contingency reserve of \$1 billion.

The Capital Program reflects the Government's increased expenditure on health, continuing significant investment in public transport, roads, water infrastructure, education and housing and homelessness services, and progress with the South East Queensland Infrastructure Plan and Program (SEQIPP), as well as a number of other new capital investments.

Each year a major part of the Queensland Government's capital program is undertaken through the Public Non-financial Corporations (PNFC) sector (that is, commercial entities of Government, including Government-owned corporations and other authorities such as the water bodies). For 2010-11, capital outlays of Queensland's PNFC sector will constitute 41% of total outlays, reflecting major investments in water, electricity, rail and ports infrastructure.

Expenditure in 2010-11 is highest in the Brisbane Statistical Division – the most populated and one of the fastest growing areas of the State – planned at \$7.606 billion. However, consistent with the Government's commitment to building Queensland's regions, over 57% of capital expenditure is expected to occur outside the Brisbane Statistical Division.

It is estimated that the State Capital Works program will support some 106,000 jobs. The employment impact of the program is estimated using methodology developed by the Office of Economic and Statistical Research.

Capital outlays by purpose in 2010-11 are shown in Chart 1.1 below. Capital outlays by State Government entity are listed in Table 1.1.

Table 1.1
Capital Outlays by Entity^{1,5,6} (Continued)

Notes:

1. Includes associated statutory bodies.
2. Includes Property Services Group and Airport Link.
3. Includes the Electoral Commission of Queensland, Office of the Governor, Office of the Ombudsman and Queensland Audit Office.
4. Contingency recognises that individual agencies may budget to fully expend their capital works allocations, however on a whole-of-Government basis, there is likely to be under spending, resulting in a carryover of capital allocations.
5. Capital works outside of Queensland are not included in the capital program.
6. Numbers may not add due to rounding.

The 2009-10 Capital Works Program budget totalled \$18.2 billion. The 2009-10 estimated actual is for total expenditure of \$17.3 billion, representing 95% of the original published budget. The 2009-10 estimated actual includes an underspend provision of \$300 million based on Treasury's analysis of year to date actuals.

Major movements in the 2009-10 capital program include variations in timing of social housing expenditure under the Australian Government's Nation Building and Jobs Plan and the cessation of works associated with the Traveston Dam. In addition, the floods and heavy rainfall in the third quarter of 2009-10 reduced expenditure on water infrastructure projects and some health, roads and electricity projects in the most affected regions.

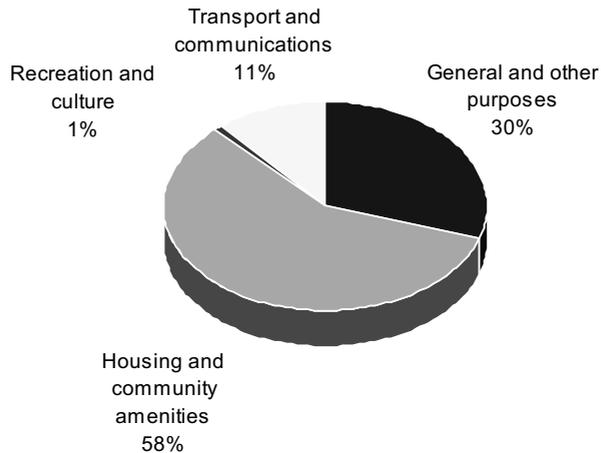

CAPITAL GRANTS TO LOCAL GOVERNMENT AUTHORITIES

As highlighted in Budget Paper 2 – Budget Strategy and Outlook, the Queensland Government provides capital grants and subsidies to local government authorities to assist with the creation or upgrading of a range of essential community infrastructure such as water supply, sewerage works, roads and drainage works.

In 2009-10, approximately 62.1% (\$818.2 million) of total Queensland Government grants made to local government authorities were for capital purposes. Capital grants to local governments are expected to account for \$724.9 million, or 58.1% of total Queensland Government grants in 2010-11.

Queensland Government capital grants to local government authorities are shown in Chart 1.2 below.

Chart 1.2
Queensland Government Capital Grants to
Local Government Authorities, by Purpose, 2010-11

FUNDING THE STATE CAPITAL PROGRAM

The State's capital program is implemented across both the General Government sector and the PNFC sector.

While the capital program undertaken across the PNFC sector contributes significantly towards meeting the Government's priorities, the process through which this capital program is developed and funded is different from the General Government sector.

Entities in the PNFC sector operate as commercial business entities, generally within competitive markets, and as such progress their capital programs on the basis of needs identified within the market sectors they service. There are a number of ways in which the capital expenditure program for the PNFC sector can be funded. Their options include using cash flow from their business, borrowings, and, in certain situations, requesting a dividend reinvestment or equity injection from shareholding Ministers.

Table 1.2 outlines the major sources of funding for the State capital program.

In 2010-11, net borrowings and advances of \$11.08 billion are estimated in support of the capital program, of which \$7.666 billion is budgeted for the General Government sector. The expected borrowing and advances requirement of the PNFC sector 2010-11 is \$3.414 billion. The major borrowers in this sector are Queensland Rail, the water bodies and Queensland Motorways Limited.

In total, borrowings and advances are projected to fund around 72% of new infrastructure in 2010-11.

After allowing for the reinvestment of earnings on investments, free cash flow of \$2.696 billion is expected to be available for investment in capital in 2010-11.

Table 1.2

2. STATE CAPITAL PROGRAM – PLANNING AND PRIORITIES

INTRODUCTION

The Queensland Government is committed to creating the infrastructure necessary to support the economic and social development of the State. It does so:

- by providing infrastructure in support of core service delivery priorities – General Government sector investment
- through investments made by commercial entities of Government, including Government-owned corporations (GOCs) – Public Non-financial Corporations (PNFC) sector investment
- where appropriate, by fostering private sector investment

This chapter outlines key capital planning and expenditure priorities for the 2010-11 Budget.

CAPITAL PLANNING AND PRIORITIES

Capital investment decisions are primarily driven by the policy priorities of Government and factors such as demographic changes and planning requirements which impact upon service delivery requirements.

The Government has a range of mechanisms available to deliver the capital needed to support its priorities. These mechanisms include the Government directly funding and constructing infrastructure and providing capital grants to local government, the private sector and profit and not-for-profit organisations to deliver capital projects and provide services on behalf of the Government. The Government also considers opportunities for private sector involvement in public infrastructure delivery either through joint ventures or stand alone projects.

Investments made by the PNFC sector also constitute a major part of the State capital program. Entities in the PNFC sector operate on a commercial basis and, as such, their capital programs reflect needs identified within the market sector serviced by these entities.

South East Queensland Infrastructure Plan and Program

The *South East Queensland Infrastructure Plan and Program 2010-2031* (SEQIPP) will outline the Government's infrastructure priorities to support the SEQ Regional Plan to 2031 and represents a long term commitment to capital works in South East Queensland.

SEQIPP is still the largest infrastructure program in the country with 383 identifiable projects supporting about one million jobs to 2031.

Five years into the SEQIPP program \$20.8 billion has been invested and 160,000 jobs have been sustained.

In 2010, the Government continues investment in the largest infrastructure program in Australia, as well as looking at how it can deliver infrastructure outcomes earlier and within the context of a constrained financial environment.

2010-11 HIGHLIGHTS

The Government is committed to continuing to develop Queensland's infrastructure base. Highlights of capital spending in 2010-11 are outlined in this section.

Health

In 2010-11, the Government continues its significant investment in health infrastructure with a \$1.709 billion capital program. The focus for 2010-11 includes investment in regional cancer services, new hospitals, hospital redevelopments and expansions (including emergency department upgrades), development of community health centre infrastructure and investment in information and health technology.

Sunshine Coast University Hospital will progress at a total estimated cost of \$1.973 billion, and will open with 450 beds in 2016 and expand to 738 beds by 2021. In the interim, the Government and Australian Government will provide funding to enhance clinical services at Nambour General Hospital through the development of a cardiac catheterisation laboratory, endoscopy suite and vascular surgery suite, improvements to neurosurgery services, increased access to aero medical retrieval services and purchasing of radiation oncology services from the private sector. Clinical capacity at Caloundra Department of Emergency Medicine will be increased to meet rising demand until the opening of the new Sunshine Coast University Hospital.

Other program highlights include:

- \$16.4 million (\$179.3 million over four years) for the construction or upgrade of cancer centres throughout Queensland. The new regional cancer services will be located in Townsville (with outreach services to Mt Isa); Rockhampton, Bundaberg and Hervey Bay (with outreach services provided from the Royal Brisbane and Women’s Hospital); and Toowoomba (with outreach services provided by the Princess Alexandra Hospital).
- \$257.4 million over four years (under the National Health and Hospital Network package) to implement a number of initiatives, including emergency department treatment times, elective surgery, rehabilitation, sub-acute care, mental health, palliative care and multi-purpose facilities.
- Further development of tertiary hospitals in South East Queensland (\$626.1 million in 2010-11: Gold Coast University Hospital and the Queensland Children’s Hospital).
- Redevelopments of hospitals (\$252.7 million in 2010-11) at Cairns, Mackay, Mount Isa, Townsville and Rockhampton continue.
- In partnership with the University of Queensland, Queensland University of Technology and the Mater Medical Research Institute \$57.2 million in 2010-11 (\$334 million over four years) will be invested in developing the Translational Research Institute (TRI) in the Princess Alexandra Hospital grounds. TRI will provide a high quality research environment that will focus on the translation of research outcomes to clinical trials and practice.

Transport and Main Roads

In 2010-11, capital funding of \$7.325 billion is provided for roads and other transport infrastructure including the Department of Transport and Main Roads, Airport Link, QR Limited, the ports corporations, Queensland Motorways Limited, RoadTek and the TransLink Transit Authority.

Roads

In 2010-11, capital funding of \$3.276 billion is provided for roads projects. Highlights of the 2010-11 roads capital program include:

- \$198 million to upgrade, to six lanes, a section of the Gateway Motorway, from Mount Gravatt-Capalaba Road to Miles Platting Road, at a total estimated cost of \$240 million

- \$88 million to commence the two lane extension of the Port of Brisbane Motorway from Lindum Road to Pritchard Street, at a total estimated cost of \$332 million
- \$37.6 million towards the completion of the duplication of the Forgan Bridge in Mackay, at a total estimated cost of \$148 million
- \$29.5 million for the Calliope Range deviation on the Dawson Highway, at a total estimated cost of \$70 million.
- \$550 million to continue the federally-funded Ipswich Motorway upgrade, between Dinmore to Goodna, at a total estimated cost of \$1.95 billion
- \$288 million, in state and federal funding, to upgrade the Bruce Highway between Cooroy and Curra (Section B – Sankeys Road to Traveston Road), at a total estimated cost of \$613 million
- \$48.5 million, in joint state and federal funding, to continue the widening of four lanes of the Douglas Arterial, on the Bruce Highway (Townsville Ring Road), at a total estimated cost of \$110 million

Rail and ports

In 2010-11, capital funding of \$3.246 billion is invested towards the continued business as usual operation for rail and ports projects. Highlights of the 2010-11 rail and ports capital program include:

- coal network – \$864.2 million for coal network tracks and new and upgraded locomotives and wagons. This includes \$502.2 million for the Goonyella to Abbot Point Expansion Infrastructure Works construction and \$192.1 million for the continuation of the Jilalan Yard Upgrade and for new and upgraded electric and diesel locomotives and coal wagons.
- Citytrain track infrastructure upgrades - \$446.4 million to upgrade infrastructure and rollingstock on the Citytrain network as part of SEQIPP.
- Port of Brisbane Corporation Limited - \$56.7 million to continue construction of berths 11 and 12 to accommodate increasing trade throughput and \$14.5 million for major road upgrades at Fisherman Islands.
- Far North Queensland Ports Corporation Limited - \$9.3 million for the southern extension of the boardwalk and foreshore promenade in the Cairns Cityport.

- Gladstone Ports Corporation Limited - \$40.2 million for upgrading works at the RG Tanna Coal Terminal and \$14 million for construction of a new tug facility.
- North Queensland Bulk Ports Corporation Limited - \$53.5 million to complete the Abbot Point Coal Terminal X50 expansion at a total estimated cost of \$818 million which will increase the terminal capacity of the terminal to 50 million tonnes per annum. A further \$39.6 million is provided to complete the renewal of coal stockpile machinery for the Abbott Point Coal Terminal.
- Port of Townsville Limited - \$57.5 million for construction of the Townsville Marine Precinct project to provide a dedicated marine facility to the local industrial and commercial marine industries.

Other Transport

The Department of Transport and Main Roads' capital expenditure program in 2010-11, for other than roads-related transport, totals \$744.3 million and predominantly comprises investment in public transport infrastructure and systems.

In the 2010-11 Budget, the Government continues to progress the implementation of SEQIPP. Some major projects in South East Queensland include:

- \$219 million for the Gold Coast Rapid Transit System, a light rail project from Parkwood to Broadbeach, at a total estimated cost for stage 1 of \$948.7 million
- \$197 million to continue construction of the Northern Busway between Enoggera Creek and Kedron, at a total estimated cost of \$734.7 million
- \$150 million to continue construction of a 1.05 km busway connection between South East Busway and Main Avenue with bus stations at Stones Corner and Langlands Park, at a total estimated cost of \$465.8 million
- \$20.3 million to continue construction of cycle links to enhance the cycle network in South East Queensland. This is made up of \$9.4 million towards the construction of state-owned cycle links and \$10.9 million in grants to be provided to local government.

The TransLink Transit Authority capital expenditure program for 2010-11 totals \$59.4 million, including \$39.1 million towards the TransLink Station

Upgrade Program, to improve existing bus stations and build additional station infrastructure.

Water

South East Queensland

To meet current and future water supply needs in South East Queensland (SEQ), the Government is continuing construction of the Water Grid, ensuring climate-resilient supply arrangements and allowing water to be regionally managed and allocated to meet demand in the areas of highest need.

\$202.2 million is budgeted for the Northern Pipeline Interconnector Stage 2, to be completed in 2011-12. This pipeline will extend from Landers Shute water treatment plant at Eudlo to Cooroy on the Sunshine Coast, and facilitate the integration of Sunshine Coast Regional Council into the SEQ Water Grid. As part of the project, reverse flow capacity will be installed on Stages 1 and 2 of the pipeline. Longer-term planning is for the pipeline to deliver water from future northern water sources, including possible northern desalination facilities. Alternatively, it could deliver water to the Sunshine Coast, should the next major supply be located elsewhere in SEQ.

The \$348 million Wyaralong Dam project is now under construction. In 2010-11, \$105 million will be spent on construction activities. The dam, which is scheduled for completion in 2011, will provide an additional 26,000 ML/pa of water when operated with the Cedar Grove Weir and the Bromelton Offstream Storage.

The Queensland Bulk Water Supply Authority is allocating \$90 million in 2010-11 for the Hinze Dam Stage 3 project. This project is due for completion in 2011 and will raise the Hinze Dam wall 15 metres, giving the dam a total capacity of nearly 310,000 ML.

Energy

Electricity usage in Queensland has grown strongly during the past ten years, and this trend is expected to continue. Queensland's annual electricity consumption over the last three years averaged approximately 48,957 GWh and is expected to grow at an annual average of 4.2% over the next three years to 2012-13.

The growth continues to be driven largely by economic activity, increasing population, and the growing use of lifestyle appliances such as plasma televisions and air-conditioners. The growth in energy consumption has been more significant in South East Queensland, due to the concentration of population and industry.

The proportion of residences with air-conditioners in Queensland has increased from around 35 per cent in 2001 to over 70 per cent, and is a key driver of peak demand. It is estimated that ENERGEX and Ergon will spend around \$3 billion over the next five years on new distribution network infrastructure to meet the increased load from air-conditioners.

Investment in electricity infrastructure continues to be driven by peak demand, with in excess of 12 per cent of ENERGEX's distribution network being utilised for only one percent of the time, equating to less than four days per annum. While demand management strategies are being explored as medium to long term responses, significant capital investment in the electricity sector is required to ensure the sector continues to meet demand.

An additional 914 megawatts of capacity was added to the state's electricity supply by the private sector with the commissioning of liquid fuel fired generation at Mt Stuart and gas-fired plants at Darling Downs and Condamine. A further 169 megawatts of capacity will be added with the commissioning of a gas-fired plant at Yarwun.

Powerlink will invest \$574 million on new transmission infrastructure and augmentation, while ENERGEX and Ergon Energy will similarly invest a total of \$2.189 billion on the distribution networks to maintain reliable and secure transmission and distribution electricity networks across the state.

Altogether, a total of \$3.130 billion has been budgeted to be spent in 2010-11 by the Government owned electricity corporations on plant and network overhauls, maintenance and augmentation. This will ensure that the State's electricity assets and infrastructure continue to maintain secure and reliable supply and are well positioned to meet forecast growth in demand.

Highlights of the 2010-11 electricity capital program include:

- **Generation sector:** the primary focus will be capital works to ensure ongoing generation plant reliability and efficiency. CS Energy will spend \$50.2 million on improvements to the Callide power station for overhauls and major refurbishment work on the B station, \$20 million and \$24.5 million respectively on improvements to the Mica Creek and Kogan

Creek power stations. Stanwell will spend \$67.4 million on comprehensive maintenance works and plant upgrades of Stanwell, Barron Gorge and Kareeya power stations with a further \$8.7 million investment in low nitrogen burners for the Stanwell power station.

Similarly, Tarong Energy will spend \$72.4 million on maintenance and improvements at the Wivenhoe, Tarong and Tarong North power stations. An additional \$38.4 million will be spent on mine fleet and equipment upgrades and refurbishments at the Meandu coal mine.

- **Transmission sector:** Powerlink will undertake major transmission augmentation and new capital works of \$574 million to reinforce electricity supply and maintain a secure and reliable transmission network across the state.
- **Distribution sector:** ENERGEX and Ergon energy have budgeted network and non-system capital expenditure of \$1.251 billion and \$937.7 million respectively for the augmentation and maintenance of the distribution network and to improve the security and reliability of electricity supply in their respective regions.

Housing

In 2010-11, Government continues its significant investment in affordable housing infrastructure with a capital program of \$1.086 billion focused on delivering additional social housing as well as improving existing dwellings to continue to meet the needs of social housing clients. This investment will assist in meeting the growing need for affordable and appropriate housing for clients, improving Queensland's response to people who are homeless or at significant risk of homelessness and improving the condition and availability of housing in Indigenous communities.

This major investment in capital works includes funding of \$90 million from the Queensland Future Growth Fund and \$699.8 million from National Partnership Agreements with the Australian Government including the Nation Building and Jobs Plan, Social Housing, Homelessness and Remote Indigenous Housing.

In 2010-11, the value of the social housing portfolio is expected to reach in excess of \$15.3 billion.

Education and Training

The education capital works budget in 2010-11 will total \$1.240 billion (including an expensed component of \$145.2 million), while the training budget will total \$133.3 million (including \$19.6 million expensed) and \$71.4 million (including \$4.3 million expensed) for early childhood education. A further \$254.6 million is allocated for the South-East Queensland Schools Public Private Partnership (SEQ Schools PPP), capital grant payments to other organisations and plant and equipment purchases for the department. This infrastructure investment will also generate further employment opportunities.

A total of \$135.0 million will be spent on facilities to cater for population growth areas across the state. This funding will provide two new schools at Springfield, undertake staged work at six schools, buy land and provide additional classrooms at existing schools. During the 2010-11 financial year, schools in wider Bellbird Park area (Ipswich), Collingwood Park (Ipswich) and East Coomera will be opened under the SEQ Schools PPP which will provide seven schools in total.

The Government's State Schools of Tomorrow program will also complete its roll out with the allocation of \$207 million to deliver new and upgraded facilities in schools. This includes:

- \$48 million to complete the relocation of Bremer State High School;
- \$23 million to complete the amalgamation of three primary schools at the former Wynnum North State High School site; and
- \$5 million to complete the renewal of Wynnum State High School.

The Government's commitment to invest \$321 million to establish up to 240 new or additional kindergarten services by 2014 will provide \$35.7 million in 2010-11, which will include the construction of 12 services on state sites for 2011.

Just over half of the education capital works budget will be used to build or upgrade facilities in Queensland schools as part of the Australian Government's Building the Education Revolution program. In 2010-11, \$703 million will provide for the building or upgrade of large scale school infrastructure (such as libraries, halls and science and language laboratories) as well as the renewal of existing school buildings.

The Queensland Skills Plan included a six-year infrastructure program worth over \$350 million. Under this plan, in 2010-11, \$109.8 million will be invested in major facilities for trade and technician skills and for the redevelopment of TAFE campuses generally.

QUEENSLAND FUTURE GROWTH FUND

The Queensland Future Growth Fund (the Fund) was established in June 2006 with the net proceeds from the sale of State Government-owned energy retailers.

The Fund supports initiatives and infrastructure benefiting Queensland by:

- implementing strategies to secure water supply and providing funding for water infrastructure
- providing funding for infrastructure projects that support the State's growth, particularly in the areas of transport, housing and commercial infrastructure
- supplying funds to research and develop innovative technologies that address climate change and proactively advance the State's environmental sustainability.

The Queensland Future Growth Corporation was created under the *Future Growth Fund Act 2006* to administer the Fund.

In 2009-10, the Fund has allocated \$658.8 million toward transport and water infrastructure, clean coal technology, climate change and Smart State projects, commercial infrastructure and social housing stock.

The Fund will continue to contribute to the following key priorities with an estimated \$362.6 million allocated to projects in 2010-11:

- constructing water and transport infrastructure
- funding for clean coal technology that will make a proactive and positive contribution to the science and technology of reducing carbon emissions
- funding for climate change initiatives such as the Solar Hot Water Rebate Scheme, energy conservation and demand management measures to reduce peak electricity demand in Queensland and grants for a range of renewable energy projects

- contributing further towards Smart State projects, including the Innovation Building Fund. The 2010-11 allocation also provides funding towards the Life Sciences Partnership Fund – a venture capital fund between the Queensland Government, global biopharmaceutical company Eli Lilly and other strategic investors that will be based in Brisbane and help make Queensland a key biotechnology hub
- funding for priority works on the Mount Isa rail line to facilitate capacity growth and develop the North West Minerals Province
- continuing to provide funding to expand the State's social housing stock.

Table 2.1 shows the allocation of the Fund towards various projects.

Table 2.1

Total	3,128,100	429,600	263,500	955,700	425,300	658,800	362,600

Note:

1. Allocation includes the forecast conversion of US\$25 million to A\$ relating to funding towards the Life Sciences Partnership Fund. The actual drawdown amount from the Queensland Future Growth Fund will be based on the conversion of US\$ to A\$ on the day of the drawdown and therefore, will differ from the forecast allocation.

3. CAPITAL OUTLAYS BY ENTITY

COMMUNITIES

Department of Communities

Total capital outlays for the Department of Communities in 2010-11 will be \$1.365 billion, including:

- \$1.086 billion for Housing and Homelessness Services (including \$587.8 million received under the Nation Building and Jobs Plan)
- \$105.6 million for Community and Youth Justice Services
- \$11.8 million for Child Safety Services
- \$71.5 million for Disability and Community Care Services
- \$44.8 million for Sport and Recreation Services.

Stadiums Queensland's capital outlay will be \$126.1 million.

These funds provide for integrated community services and support to vulnerable and disadvantaged Queenslanders, to help build fair, cohesive and vibrant Queensland communities.

Program Highlights

- \$674.9 million for the provision of Government-managed social housing to commence construction of 927 and complete 1,992 rental units, purchase 103 rental units, purchase and develop land and enhance the condition of existing social housing.
- \$236.7 million for the provision of community-managed social housing to commence construction of 565 and complete 1,098 rental units, purchase 15 rental units, purchase and develop land and enhance the condition of existing social housing.
- \$143.7 million in capital grants for upgrades to existing properties and new units of accommodation and replacements for the 34 Indigenous communities.
- \$83 million to continue to expand the Cleveland Youth Detention Centre in Townsville to a 96-bed facility with completion scheduled in 2012-13.
- \$3 million under the Sustainable Resource Communities funding initiative to purpose build the Moranbah Youth Centre, to provide a safe and suitable location for youth services, activities and program.

- \$2.6 million under the Sustainable Resource Communities funding initiative to replace the Chinchilla Community Centre.
- \$10 million to continue the establishment and upgrade of residential care facilities to expand the range of placement options available for children and young people in the child protection system.
- \$1.8 million to continue construction activities and the establishment of Safe Houses in the Indigenous communities of Palm Island, Mornington Island and Napranum to provide a safe place for Indigenous children in the statutory child protection system to remain in their communities while their longer term needs are being assessed. Planning and community consultation will continue for additional safe houses in eastern Cape York, the Torres Strait Islands and the Northern Peninsula Area.
- \$9.3 million under the Disability Assistance Package funding (from a total of \$18.3 million received from the Australian Government) to provide sustainable housing arrangements for people with a disability who have ageing carers.
- \$11.6 million to purchase, construct and upgrade residential accommodation for non-clinical mental health services and people with a disability.
- \$23 million to continue capital upgrades to infrastructure and construct purpose built accommodation, as part of a targeted response under the Positive Futures initiative for people with an intellectual and/or cognitive disability who exhibit severely challenging behaviours.
- \$35.5 million to develop and improve sport and recreation infrastructure. A review of the sport and recreation funding programs resulted in consolidation of programs and in 2010-11 the new suite of programs will consist of the Sport and Recreation Active Inclusion Program, the Local Sport and Recreation Jobs Plan, the Sport and Recreation Infrastructure Program and the State Sport and Recreation Organisation Development Program. Continuing programs include the Young Athlete Assistance Program, the Disaster Recovery Program, and Indigenous Programs. All existing commitments from ceasing programs will be met.
- \$3 million in 2010-11 and an additional \$1.6 million in 2011-12 under the Sustainable Resource Communities funding initiative to the Western District Regional Council to refurbish the Dalby Aquatic Centre.
- \$1 million in 2010-11 under the Sustainable Resource Communities funding initiative for the Central Highlands Driver facility.

- \$0.63 million to be provided to the Townsville City Council to improve public amenities for the Townsville 400 V8 Supercar event.

Stadiums Queensland

Stadiums Queensland's 2010-11 capital program reflects the investment required to develop, enhance and maintain Queensland's major sports facilities to a standard appropriate for the conduct of national, international and community events.

Program Highlights

- Stadiums Queensland's 2010-11 capital program budget provides \$100 million towards the redevelopment of the jointly funded Gold Coast Stadium at Carrara. The State Government has partnered with the Gold Coast City Council and the AFL to deliver additional funding towards the construction, which will include a permanent covered southern stand and the installation of solar panelling, bringing the total estimated cost to \$144.2 million.
- \$9.8 million towards a new Olympic standard swimming pool and Olympic standard BMX track at the Sleeman Sports Complex.
- \$16.3 million to upgrade, maintain and replace facilities at Stadiums Queensland's eight venues.

COMMUNITY SAFETY

The department's 2010-11 capital program will invest \$303.5 million in capital acquisitions and grants to ensure essential services to minimise the risk and impact of accidents, emergencies and disasters; and for an expanded correctional centre infrastructure to plan for the future. These initiatives link to the Government's outcome of enhancing community safety.

The major features of this program include a substantial investment in: the South Queensland Correctional Precinct at Gatton; the expansion and redevelopment of Lotus Glen Correctional Centre in Far North Queensland; and the construction of the Queensland Emergency Operations Centre at Kedron to enable more effective management of large scale emergencies and disasters in Queensland.

Program Highlights

- \$168.6 million to continue construction of the new \$485.6 million first stage of the development of the South Queensland Correctional Precinct at Gatton and the \$442.8 million expansion and redevelopment of the Lotus Glen Correctional Centre.
- \$20.1 million (as part of a total allocation of \$71.1 million) to complete the construction of the Queensland Emergency Operations Centre at Kedron. The investment also involves upgrading and replacement of radio and information and communications technology (ICT).
- Total outlay of \$51.8 million is provided for new ambulance facilities, vehicles, operational equipment, and ICT improvements, and \$33.6 million is provided for fire facilities, urban and rural fire appliances, and operational equipment and ICT improvements.
- Six new ambulance stations at Ashgrove/The Gap, Coomera, Ningi, Pinjarra Hills, Springfield, and North Lakes, and 14 replacement, redeveloped or refurbished ambulance facilities will be commenced, progressed or completed during 2010-11, with \$0.9 million for staff housing in the Surat and Bowen Basins.
- \$18.5 million is allocated for the commissioning of 165 new or replacement ambulance vehicles to ensure the ambulance fleet continues to be maintained at the highest possible level and for additional vehicles to meet increasing community needs.
- Complete construction of a new fire and rescue station at Agnes Water and a new service through the construction of new fire stations at Ripley and Brassall to replace the existing Ipswich fire station.

- Seven replacement or redeveloped fire stations and a training facility at Dysart will be completed or commenced during 2010-11.
- \$10.9 million is allocated for 23 new or replacement urban fire appliances to support service delivery, while \$4.4 million is invested in 25 new or replacement rural fire appliances.
- \$1.7 million is allocated to ambulance services and \$1.2 million to fire and rescue services for strategic land purchases.
- \$0.2 million is provided to commence design for the \$7 million Spring Hill complex and ambulance station redevelopment.
- \$1.2 million is provided for ongoing improvements at Queensland Combined Emergency Services Academy at Lytton.
- \$12.6 million is provided for acquisitions of Queensland Corrective Services property, plant and equipment.
- A total of \$6.3 million is provided for post occupancy works following the completion of four major prison infrastructure projects in Wacol and Townsville.
- A combined total of \$1.2 million is provided for the upgrade and expansion of Probation and Parole services throughout the State.
- \$1.1 million is allocated for the purchase of a disaster management warehouse in North Queensland to ensure rapid and reliable deployment of high volumes of essential supplies to local communities to assist in response or recovery situations.
- \$3.2 million is provided for the ongoing maintenance of the Townsville based Bell 412 helicopter.

EDUCATION AND TRAINING

Total capital expenditure for the Department of Education and Training portfolio (including the Department of Education and Training and related entities) is \$1.531 billion in 2010-11.

Education

The 2010-11 budget provides a substantial investment in educational facilities with an education capital works program of \$1.24 billion (including an expensed component of \$145.2 million). A further \$71.1 million is funded under the SEQ Schools Public Private Partnership Project which will provide a further 3 new State Schools for the commencement of the 2011 academic year.

Education's planning for capital works meets the Government's priorities and needs by considering population growth and shifts and consequential impacts on enrolments, changes in educational standards and delivery methods, and addressing high priority needs such as student and staff health and safety.

Program Highlights

- \$703 million to deliver the Australian Government Building the Education Revolution.
- \$135 million to construct two new schools, relocate two schools, undertake staged work at six schools, buy land, and to provide additional classrooms at existing schools in growth areas throughout the State.
- \$95 million to replace and enhance facilities at existing schools.
- \$207 million to complete the State Schools of Tomorrow program.
- \$11 million to acquire new employee housing and refurbish existing housing stock.

Training

The 2010-11 capital works program provides \$133.3 million (including an expensed component of \$19.6 million) towards the construction and refurbishment of TAFE training facilities.

Program Highlights

- \$36 million for continuing the development of SkillsTech Australia major trade and technician skills campus at Acacia Ridge in Brisbane.
- \$24 million to continue the redevelopment of the Cairns campus of the Tropical North Queensland Institute of TAFE.

- \$13 million for the new Coomera Education Precinct of the Gold Coast Institute of TAFE.
- \$10 million for the development of a major trade and technician skills campus at Mackay.
- \$6 million for the redevelopment of the Bundamba campus of The Bremer Institute of TAFE.

Early Childhood Education and Care

The 2010-11 capital works program allocates \$71.4 million towards early childhood education and care (including an expensed component of \$4.3 million). Funding includes the bring forward of \$21.9 million to 2010-11 to support the accelerated planning and delivery of Kindergarten services. The Government will open 12 kindergarten services on state school sites and partner with the non-state school sectors to open more services.

Program Highlights

- \$36 million to continue construction of kindergartens.
- \$19 million for the construction of child and family centres.
- \$7 million to construct early years centres.
- \$6 million towards early childhood education centres.

Southbank Institute of Technology

Continuing investment in Information and Communication Technology (ICT) to ensure our students and staff have an outstanding learning and work experience respectively.

Gold Coast Institute of TAFE

ICT program includes planned equipment replacement and new strategic systems. Minor Capital Works program includes refurbishments, air conditioning, signage and fire/security upgrades.

Notes:

- Education capital grants are distributed by non-state entities throughout Queensland's statistical divisions.
- Project budgets listed in the table are in some cases indicative and are subject to refinement as projects are further developed.
- Projects contained in the table have been included on the basis of projected enrolments. If projected enrolments do not eventuate, then listed projects may be deferred or stopped, or new projects added during the course of the financial year.
- The amounts quoted in the above table reflect the estimated portion of project costs that will be capitalised. The amounts quoted in the program highlights, Service Delivery Statements and the Regional Budget Statements are the full financial costs of projects (i.e. they include some expensed items).
- The Australian Government may also contribute funding for these projects.
- Funds allocated to trade training centre projects are indicative and subject to Australian Government review and approval.

ELECTORAL COMMISSION OF QUEENSLAND

An amount of \$0.04 million is allocated in 2010-11 towards the on-going replacement program of plant and equipment to provide for the ongoing operational requirements associated with the efficient and effective provision of electoral services for the State of Queensland.

EMPLOYMENT, ECONOMIC DEVELOPMENT AND INNOVATION

Total capital outlays for 2010-11 for the Employment, Economic Development and Innovation portfolio including statutory bodies reporting to respective Department of Employment, Economic Development and Innovation Ministers and Energy Government Owned Corporations is \$3.3 billion. A significant portion of this expenditure will be spent state-wide on new energy infrastructure, systems upgrades and maintenance.

Department of Employment, Economic Development and Innovation

The capital expenditure program for the Department of Employment, Economic Development and Innovation (DEEDI) in 2010-11 is \$145 million. DEEDI's capital program supports the continuing economic development of the State's industries, develops and reinvests in world class research facilities, and enhances service delivery through the development of new information communication technology platforms.

Program Highlights

- Construction of the Health and Food Sciences Precinct at Coopers Plains and the Ecosciences Precinct at Boggo Road commenced in mid 2008. The Health and Food Sciences Precinct was completed in the first half of 2010. Construction of the Ecosciences Precinct at Boggo Road is expected to be completed in late 2010. The completion of the precincts will facilitate the co-location of research activities of DEEDI, the Department of Environment and Resource Management, Queensland Health and the Commonwealth Scientific and Industrial Research Organisation (CSIRO).
- \$17.5 million has been allocated to the 2020 Beef Plan. 2020 Beef includes purchase of a new purpose-designed beef research property in North Queensland's dry tropics, expected to carry 2000 breeders, which will be one of Australia's peak locations for projects to advance beef breeding. 2020 Beef will also include an upgrade of the Brian Pastures property near Gayndah (owned by AgForce and leased by the department) and co-location of the department with the Australian Agricultural College Corporation at its Berrigurra property at Blackwater.
- \$16 million for the Tropical Biosecurity Laboratory at James Cook University Campus, Townsville.
- \$3 million has been allocated for the Darling Downs Cropping Research and Training Centre. Up to \$3 million will be reinvested to create this facility which will provide training in broadscale crop production, machinery operations and undertake major field crop research.

- \$10.7 million over three years to enhance the efficiency of Government mining and petroleum tenure approval and regulatory processes. A modern technology platform will help streamline the project approval process.
- \$2.4 million to continue work on the Mt Isa Drill Core Facility.
- The Government will establish the Racing Industry Capital Development Scheme, totalling \$85 million over four years. The scheme will assist the racing industry with the provision of priority capital works.

QRAA

QRAA's capital budget for 2010-11 will be used for information technology software and hardware.

Australian Agricultural College Corporation

The primary focus of AACC's 2010-11 capital program will be planning and initial implementation of the Reconnecting Agricultural Education initiative. AACC aims to increase the number of sites where it delivers training and to be recognised as the preferred training provider for rural and related industries.

CS Energy Limited

A \$111.3 million capital expenditure program is planned for 2010-11. This reflects the continued commitment to the ongoing reliability and efficiency of generation plant.

Program Highlights

- \$50.2 million for improvements to the Callide power station including overhaul work and major refurbishment work on B station mid-life refit.
- \$2.5 million for improvements to the gas-fired Swanbank power station.
- \$20 million for improvements to the Mica Creek power station including overhaul work.
- \$24.5 million for improvements to the Kogan Creek power station including overhaul work.
- \$14.1 million for corporate and business development initiatives.

ENERGEX Limited

The ENERGEX Group has prepared a capital program of \$1.251 billion as part of its commitment to providing a safe, secure and highly reliable, cost effective electricity delivery to its customers. The capital program will match the high growth in electricity usage being driven by a strong Queensland economy and increased use of lifestyle enhancing appliances, such as air conditioners.

The regulated electricity capital expenditure program for 2010-11 is \$1.035 billion. This includes \$386.1 million on the sub transmission system and \$648.8 million on the distribution network.

Program Highlights

Capital works planned to increase network capacity and reliability include:

- \$3.3 million to continue a two stage upgrade of the Beenleigh substation to increase network capacity/reliability.
- \$16.6 million to complete underground cable project between Bundall and Molendinar to increase network capacity and reliability.
- \$8.4 million to improve underground power supplies in Brisbane CBD.
- \$9.7 million to continue the construction of a new electricity substation at Burpengary to increase network capacity and reliability.
- \$23.3 million towards construction of a new electricity substation at Griffin to increase network capacity/reliability.
- \$7 million towards an upgrade of capacity to the Grovely substation to increase network capacity/reliability.
- \$5 million towards establishment of a substation at Springfield to increase network capacity/reliability.
- \$14 million to rebuild the Woodridge substation to increase network capacity and reliability.
- \$3.8 million to improve electricity supplies at Nambour substation.
- \$12 million for upgrade of power supplies in the central Sunshine Coast area to increase network capacity and reliability.
- \$10.5 million to install new powerlines between Caboolture and Toorbul Point to increase network capacity and reliability.
- \$10.3 million towards the establishment of a new substation at Pomona to increase network capacity and reliability.
- \$4.7 million to improve electricity supplies between Tin Can Bay and Rainbow Beach to increase network capacity and reliability.

Stanwell Corporation Limited

Stanwell Corporation Limited's expected capital expenditure for 2010-11 is \$122.6 million. This relates to improving the efficiency of existing generation assets at Stanwell, Barron and Kareeya and investment in potential upstream gas

opportunities.

Program Highlights

- \$58.4 million for major overhauls and efficiency upgrades at Stanwell Power Station.
- \$8.7 million in Low Nitrogen Oxide Burners at Stanwell Power Station.
- \$9 million at the Kareeya and Barron Gorge Hydro Power Stations.
- \$15.8 million for upgrade of information systems and infrastructure.
- \$30.6 million in Business Development for investigation and development of upstream gas supplies and renewable technologies.

Tarong Energy Corporation Limited

Tarong Energy Corporation Limited's capital expenditure program (in Queensland) for 2010-11 is \$133.8 million, which primarily relates to maintaining operations at Tarong Power Station, Tarong North Power Station, Wivenhoe Power Station and Meandu Mine.

Program Highlights

- \$42.9 million to replace mine fleet equipment, overhaul the dragline and for resource evaluation at the Meandu mine and the Kunioon reserve.
- \$19.6 million for overhauls of units 1 and 3 at Tarong Power Station.
- \$10.6 million for system improvements, enhancements and equipment refresh.
- \$8.6 million for the instrumentation and control systems upgrade at Tarong Power Station.
- \$7.8 million for the continued evaluation of Tarong's Glen Wilga coal asset.

Powerlink Queensland

Powerlink Queensland is the high voltage electricity transmission entity for Queensland. Powerlink's budgeted capital expenditure for 2010-11 is \$574 million and includes the following program highlights.

Program Highlights

- \$48.2 million to complete construction of a 275kV transmission line between the existing Strathmore and Ross substations.
- \$21.7 million for the construction of a new substation at Bowen North and a 132kV transmission line between the new substation and the existing Strathmore Substation.

- \$6.2 million for the replacement of the existing Gladstone Substation to be known as Calliope River Substation.
- \$16 million towards replacement of the existing Swanbank A Substation and construction of the new substation, to be known as Blackstone Substation.
- \$117 million towards establishment of two new substations at Western Downs and Halys, construction of a transmission line between the new substations, and the reconfiguration of the existing Kogan Creek to Braemar transmission line and associated substation works.

Ergon Energy Corporation Limited

Ergon Energy Corporation Limited's capital expenditure for 2010-11 of \$937.7 million includes a significant number of major projects which are primarily related to the electricity network and its associated infrastructure, with the objective to improve the quality of supply to domestic and commercial customers.

Program Highlights

- \$22.4 million for the Supervisory Control and Data Acquisition System (SCADA).
- \$70 million for Ubinet Project.
- \$22.2 million to reinforce supply to Bowen Basin (Broadlea).
- \$10.8 million to reinforce supply to Airlie Beach (Jubilee Pocket).
- \$12.2 million to reinforce supply to Dalby Central.
- \$20.1 million to reinforce the Bulk Supply Point (Roma).
- \$8.3 million to establish the Geothermal Plant (Birdsville).
- \$4.7 million to complete the reinforcement of supply to Townsville.
- \$2.3 million to complete the reinforcement of supply to North Queensland.

Tourism Queensland

Tourism Queensland's 2010-11 capital budget will be used for information technology hardware and software upgrades.

ENVIRONMENT AND RESOURCE MANAGEMENT

The capital program for the Environment and Resource Management portfolio (including the department, Queensland Bulk Water Supply Authority, Queensland Bulk Water Transport Authority, Queensland Manufactured Water Authority, SEQ Water Grid Manager, Gladstone Area Water Board, Mount Isa Water Board and SunWater) for 2010-11 is \$455.7 million.

Department of Environment and Resource Management

The department's 2010-11 capital program principally supports the planning and management of the State's water, land and vegetation resources and protection of Queensland's natural and cultural heritage. The department's 2010-11 capital budget is \$127.5 million and demonstrates the Government's commitment to the Towards Q2 Strong and Green Ambitions.

Program Highlights

- \$17.1 million for infrastructure within parks and forests as well as other building and accommodation upgrades.
- \$14 million for land acquisitions and capital grants to deliver the Queensland Government's Koala Response Strategy at a budgeted total cost of \$43.5 million. The strategy aims to halt the serious decline of South East Queensland's koala populations and has an overarching goal of increasing mature koala habitat by 2020.
- \$2.1 million in 2010-11 for acquisition of national park lands towards achieving the Queensland Government's Green Q2 target of increasing the area of national park to 7.5% of the State by 2020.
- \$6.2 million to implement the new Queensland waste reform agenda to avoid waste generation and improve resource efficiency and recovery. Capital funding will be provided to build the required information technology systems and assist with the provision of infrastructure to local government.
- The program of dam spillway upgrades will continue in 2010-11 with \$10 million provided for capital works statewide.
- The acquisition of land for future water infrastructure projects will continue with \$48.2 million set aside in 2010-11 for strategic land purchases relating to Connors River dam.

Gladstone Area Water Board

The Gladstone Area Water Board's capital budget is \$27.2 million for 2010-11.

Program Highlights

- \$9.1 million to construct an off-line storage dam facility.
- \$2.1 million for the planning stage of the Lower Fitzroy River Weirs.
- \$1.8 million to replace the Carbon Batching and Dosing Plant at the Gladstone Water Treatment Plant to consistently produce potable water of a high quality.
- \$1.6 million to construct a new embankment at Saddle Dam No. 3 at Awoonga Dam.
- \$1.2 million for the transition and management stage of the Gladstone-Fitzroy Pipeline project.

Mount Isa Water Board

The Mount Isa Water Board's capital budget is \$4.9 million for 2010-11 and includes \$1.2 million for Stage 2 of the Lake Moondarra to Mount Isa Terminal Reservoir Pipeline replacement project, \$0.9 million for the installation of a fluoridation plant at Mount Isa Terminal Reservoir Pump Station and \$2.8 million for various infrastructure and asset upgrades.

SunWater

SunWater's capital budget of \$37.1 million for 2010-11 includes \$14.5 million for the ongoing asset refurbishment program, \$12 million for the Kinchant Dam spillway upgrade and \$6.2 million for the Tinaroo Dam spillway upgrade.

Queensland Bulk Water Supply Authority

The Queensland Bulk Water Supply Authority's capital budget for 2010-11 is \$133.1 million. Major projects include \$7.4 million for the initial planning and development of the proposed Wyaralong Water Treatment Plant, \$12.9 million for the upgrade of existing dams, weirs and water treatment plants and \$90 million for the Hinze Dam Stage 3 project. The project is due for completion in December 2010 and will provide a total capacity of nearly 310 megalitres, and deliver an extra 16 megalitres per day into the South East Queensland Water Grid.

Queensland Bulk Water Transport Authority

The Queensland Bulk Water Transport Authority has allocated \$34.6 million in 2010-11 to the upgrade of SEQ Water Infrastructure Assets, including \$32 million for enhancements to trunk mains, related pipework and pumping stations.

Queensland Manufactured Water Authority

The capital program for the Queensland Manufactured Water Authority for 2010-11 is \$90.7 million, primarily to complete climate resilient water supply projects.

SEQ Water Grid Manager

The capital program for the SEQ Water Grid Manager for 2010-11 is \$0.7 million, primarily to continue the development of systems and processes to improve the efficiency of the operations of the SEQ Water Grid.

HEALTH

The total capital program for Queensland Health will see \$1.634 billion invested in new capital acquisitions in 2010-11, and an additional capital investment of \$75 million by the Queensland Institute of Medical Research (QIMR).

Department of Health

The Queensland Health capital works program is an important input into the delivery of health services and outputs that underpin the provision of dependable and better health care and support Government's ambitions outlined in *Toward Q2: Tomorrow's Queensland*.

In 2010-11, Queensland Health will continue its capital investment across a broad range of health care settings including community health centres, hospitals, health technology, pathology and scientific services, mental health services, residential care, staff accommodation, and information and communication technologies (ICT). This program will ensure that health infrastructure and assets support the delivery of health services and contribute to improved health outcomes for Queenslanders.

National Health and Hospitals Network

Under the Australian Government's National Health and Hospitals Network (NHHN) reform funding package, Queensland will invest \$257.4 million additional capital over four years (including \$14.6 million for interim service enhancements at Nambour General Hospital) in initiatives to improve access to hospital services including emergency departments, elective surgery, multipurpose services and sub-acute care.

Regional Cancer Centres

Total capital funding of \$16.4 million in 2010-11 (\$179.3 million over four years, including \$164.3 million from the Australian Government) will provide new or upgraded cancer centres in regional Queensland including:

- enhancement to cancer services in North Queensland with 26 additional chemotherapy chairs, two additional linear accelerators and a Positron Emission Tomography scanner at Townsville and enhanced tele-oncology and chemotherapy treatment services at Mount Isa
- enhancing regional cancer services to Central Queensland through an increase in beds and day treatment spaces at Bundaberg, Hervey Bay and Rockhampton
- expanding medical oncology services in Southern Queensland by increasing the number of treatment spaces and inpatient beds at Toowoomba by 24.

Sunshine Coast Interim Service Enhancements

To assist in managing increased service demand until the opening of the Sunshine Coast University Hospital, \$11.5 million will be invested in 2010-11 (\$26.1 million over two years) on the following projects:

- Increased clinical capability and capacity at Caloundra Hospital emergency department to meet rising demand
- New cardiac catheterisation laboratory, endoscopy and vascular surgery suites at Nambour General Hospital, funded from the NHHN.

Queensland Children's Hospital

Funding of \$95.5 million is provided over four years to directly fund the central energy facility and pathology laboratory following further consideration of delivery mechanisms for these facilities. In addition, \$18.3 million is provided to relocate the Leukaemia Foundation of Queensland into improved and expanded premises to facilitate the development of the Queensland Children's Hospital.

Priority Capital Program

\$121.2 million over four years will be invested in a Priority Capital Program to facilitate a prioritised, state-wide program of capital works for Queensland Health, including asset refurbishment to facilitate the efficient and effective delivery of quality health services. This program will include minor refurbishment and/or renewal activities on buildings and engineering services, additional ICT infrastructure and equipment replacement.

Other Program Highlights

- A total of \$1.226 billion will be invested in hospital projects in 2010-11 including:
 - \$636.9 million in 2010-11 to continue the planning and development of three new tertiary hospitals - the Gold Coast University Hospital, the Queensland Children's Hospital and the Sunshine Coast University Hospital. A total investment of \$5.132 billion has been committed to establish these new hospitals;
 - \$4.3 million will be expended in 2010-11 (\$80 million over five years from 2009-10) to ensure the new Queensland Children's Hospital is supported by a world class academic and research centre;
 - \$252.8 million will be expended in 2010-11 to continue redevelopments at Cairns, Mackay, Mount Isa, Rockhampton and Townsville Hospitals. These projects represent a total investment of \$1.403 billion;

- \$41.1 million in 2010-11 to continue upgrades to the emergency departments at Logan, QEII and Redland Hospitals under the \$140.4 million Faster Emergency Care in our Hospitals initiative. Under this initiative, emergency departments at Caboolture, Ipswich and Toowoomba Hospitals will also be upgraded, as well as a dedicated paediatric emergency department at The Prince Charles Hospital;
 - hospital redevelopments expected to be completed and fully commissioned in 2010-11 include the Princess Alexandra Hospital emergency department upgrade, the Robina emergency department and intensive care upgrades, the Prince Charles Hospital upgrade and the Toowoomba Hospital Birthing Centre; and
 - \$50 million is allocated in 2010-11 to progress projects to address health service demand management requirements throughout the State.
- \$67.7 million will be invested in 2010-11 in Pathology and Scientific Services including enhancements to various forensic science locations across Queensland, expansion to the Hervey Bay pathology laboratory and development of the Translational Research Institute on the Princess Alexandra Hospital campus. A total investment of \$353.5 million has been committed to establish these new facilities.
 - In 2010-11 \$33.2 million will be invested in community health services including the Thursday Island Chronic Disease Centre. Community Health Centres expected to be completed in 2010-11 include Cairns, Cherbourg, Gladstone and Middlemount, and Oral Health centres at various locations across Queensland.
 - \$4.4 million in 2010-11 towards projects to upgrade staff accommodation including \$1.1 million for the Regional Accommodation Program and \$1.5 million to complete the Moranbah staff accommodation funded through the Sustainable Resources Community Fund.
 - In 2010-11, \$57.5 million will fund provision of health technology equipment that supports the efficient delivery of safe, quality health services.
 - Replacement of the residential aged care facility in Cloncurry will continue, with \$1.3 million in 2010-11.
 - \$24.3 million will be invested in 2010-11 for enhancements to mental health services, including \$23.3 million under the Queensland Plan for Mental Health (2007-17).
 - \$74.9 million will be invested in information and communication technology equipment to replace, upgrade and provide future capability to support the e-Health strategy and clinical information solutions. This investment incorporates telephone system, cabling, network and server replacements.

- \$25.9 million will be invested in the continued state-wide roll-out of e-Health clinical and administrative support systems. Key highlights of e-Health stage one include:
 - an integrated electronic Medical Record (eMR) to allow clinicians and planners to have a single view of patient records;
 - Radiology Information Systems enabling the diagnostic images of Queenslanders living in regional and rural areas to be reviewed via tele-radiology systems;
 - mobile and fixed digital technology for breast screening to improve early detection and treatment of breast cancer for Queenslanders;
 - an Enterprise Discharge Summary to provide a reliable, comprehensive care record to patients and improve continuity of care by General Practitioners; and
 - access to patient data for all mental health clinicians across the State.

Stage two of the e-Health program will leverage outcomes of stage one and continue the roll-out of an integrated eMR across Queensland Health through two key programs:

- Clinical Informatics Program that will deliver systems for results reporting, order entry, medications management, clinical notes and discharge summary; and
- the eMR Viewer Program will ensure that key patient information held centrally by Queensland Health can be accessed appropriately by clinicians across the State.

Council of the Queensland Institute of Medical Research

The QIMR capital program in 2010-11 will invest \$1.1 million for the acquisition of new and/or replacement equipment including state-of-the-art scientific equipment.

In 2010-11, \$73.9 million will continue the development of the Smart State Medical Research Centre. This \$181.3 million project, scheduled for completion in 2012-13 is jointly funded by the Queensland and Australian Governments and Atlantic Philanthropies. Once completed, the Centre will increase current research capacity in areas such as tropical diseases, vaccine development, cancer and genetics, and will allow the development of a new Mental Health Research Division.

INFRASTRUCTURE AND PLANNING

Department of Infrastructure and Planning

The department's 2010-11 capital expenditure budget incorporating Property Services Group, Water Infrastructure Projects, Airport Link and the Urban Land Development Authority is \$1.004 billion. In 2010-11 the department will deliver benefits for Queensland through planning, facilitation, delivery and coordination of strategic land use and major infrastructure projects and initiatives in collaboration with local governments and the community. The department will continue to work in partnership with the local government sector to build the sustainability of Queensland's local government system, with an emphasis on asset management planning and improved long term financial planning.

Program Highlights

The Local Government Capital Program totals \$459.9 million in 2010-11.

In 2010-11 local government funding programs include:

- \$13.7 million to Cassowary Coast Regional Council for priority projects including the Innisfail Water Treatment Plant and the Jubilee Bridge
- \$13.2 million to support the redevelopment of the Flinders Street Mall in Townsville
- \$6.5 million to upgrade the Whitsunday Coast Airport complex
- \$188.5 million towards the restoration of public assets under the Natural Disaster Relief Arrangements
- \$110 million for the Local Government Grants and Subsidies program which includes funding for Townsville City Council for the upgrade of five wastewater treatment plants; Gladstone Regional Council for the Integrated Water and Sewerage Project and Carpentaria Shire Council for works on the Karumba Sewerage Scheme
- \$59.3 million under the Indigenous Environmental Health Infrastructure Program for priority projects relating to the social housing program
- \$31.3 million towards sewage treatment plant upgrades for Whitsunday Regional Council, Hinchinbrook Shire Council, Cassowary Coast Regional Council and the Tablelands Regional Council
- \$19.7 million for the Fluoridation Capital Assistance Program to undertake capital works outside South East Queensland for the introduction of fluoridation

- \$5.3 million is being provided to enable the State to meet its obligations in acquiring the Surat Basin rail corridor
- \$5.3 million to continue land acquisition in the Targinie precinct for the Aldoga Fisherman's Landing Corridor
- \$2.5 million to continue land acquisition associated with the Narangba Hardrock Haulage Corridor.

In the 2009-10 Budget, the Government announced major reforms to the suite of local government grant programs. That included the introduction of a new scheme with revised funding criteria targetted at Councils with essential infrastructure projects that lack the financial capacity to deliver them.

The 2010-11 Budget includes funding to complete projects that were approved prior to the introduction of the changes, in line with the Government's commitment.

Property Services Group

The Property Services Group delivers the property services component of the Industry Location Scheme. The Group's functions include the acquisition, planning and development of land for business and industry locating to or expanding in Queensland. In 2010-11 the capital expenditure program for the Group totals \$82.6 million.

Program Highlights

Industrial development and infrastructure projects are to proceed in 2010-11 including:

- \$15.2 million for completion of Stage 1 of the Coolum Industrial Estate
- \$10.8 million to complete the development of the South Mackay Industrial Estate
- \$10.3 million for the development of the Willowbank Industrial Precinct
- \$10 million towards the Gladstone State Development Area service infrastructure
- \$7.6 million for the Amberley Aerospace and Defence Support Centre
- \$6.0 million to develop the Charlton North Industrial Estate.

The following land acquisitions are planned for 2010-11, subject to negotiations:

- \$6 million for the acquisition of land for future development of industrial estates in the Mackay region

- \$5.5 million for the acquisition of land to extend the Abbot Point State Development Area
- \$1.8 million for continued acquisition within South East Queensland for the future development of industrial estates
- \$1.4 million for the acquisition of land within Far North Queensland for future industrial development.

Water Infrastructure Projects

The Government established a number of special purpose vehicles to provide rigorous governance, management and delivery of water infrastructure projects which are progressing to the final phase of completion.

- The \$348 million Wyaralong Dam Project is well advanced. The Beaudesert-Boonah Road realignment is on track to open in mid-2010 and major construction is underway on the dam site. In 2010-11, \$105 million has been allocated for construction works for the dam. The Wyaralong Dam will provide an additional 26,000 mega litres annually of water when operated in conjunction with the Cedar Grove Weir and Bromelton Offstream Storage.
- In 2010-11, \$202.2 million has been allocated for the construction of the Northern Pipeline Interconnector Stage 2. This pipeline will be approximately 48 km and extend from Eudlo to Cooroy on the Sunshine Coast and due for completion in 2012 at a total cost of \$440.4 million.
- \$6.2 million has been allocated for preliminary project works on the Cedar Grove Connector which will link the Wyaralong Water Treatment Plant to the South East Queensland Water Grid.

Airport Link

The construction of Airport Link commenced in 2008. This project is well progressed towards completion in mid 2012, including acquisition of the required land. \$115.1 million has been allocated for this project in 2010-11.

Urban Land Development Authority

The Urban Land Development Authority (ULDA) is constructing a multipurpose community facility in the Fitzgibbon Chase development to provide a community meeting place for residents. The Bushland Trails project involves the creation of 2.7 kilometres of trails through conservation land in Fitzgibbon.

- Total estimated cost includes land acquisition and early works, but excludes expenditure on land acquisition undertaken by the Department of Transport and Main Roads (\$164 million) and the State's contribution of \$267.2 million towards the project.

JUSTICE AND ATTORNEY GENERAL

The 2010-11 capital expenditure program for the Department of Justice and Attorney-General (including Public Trust Office, Legal Aid Queensland, Crime and Misconduct Commission, Office of the Information Commissioner and Anti-Discrimination Commission Queensland) is \$330 million.

Department of Justice and Attorney-General

The Department of Justice and Attorney-General capital expenditure program for 2010-11 is \$317.8 million. The department's capital program concentrates on the construction of new courthouses and new facilities, and the refurbishment and replacement of major building components for existing courthouses. It also includes the continual development and improvement of all departmental information systems and equipment.

Program Highlights

- \$290 million for the construction of the Brisbane Supreme Court and District Court.
- \$2.6 million for the completion of an arrest court extension and new courtrooms at Southport Courthouse. This will enhance the courthouse's capacity to deal with the increasing number of criminal and civil cases.
- \$5.9 million for the continual upgrade, improvement and development of the department's information system to ensure service delivery and operational efficiencies across the justice system.

Public Trust Office

The 2010-11 capital expenditure program for the Public Trust Office is \$7.9 million. This expenditure will enable the Public Trust Office to continue to provide a wide range of efficient services to the Queensland community on a self funded basis. The Public Trustee will source the investment for these capital assets from its own funds at no cost to Government.

Program Highlights

- \$5.5 million will be spent on the refurbishment of existing offices throughout the state and \$0.91 million on other property, plant and equipment during 2010-11.
- To ensure the Public Trust Office is maintaining optimal use of its computer hardware, a strategy has been developed to manage the upgrading of equipment on a rolling replacement strategy. The Public Trust Office is completely reliant on its computerised information systems to maintain efficient and cost effective services to its clients. The Public Trustee proposes to spend \$0.56 million on

computer hardware and \$0.90 million on software during 2010-11.

Legal Aid Queensland

The 2010-11 capital expenditure program for Legal Aid Queensland is \$1.9 million. Legal Aid Queensland will invest \$0.85 million in the replacement of office equipment and vehicles, \$0.17 million in upgrading Brisbane accommodation and \$0.85 million to develop an Electronic Document Records Management System.

Crime and Misconduct Commission

The 2010-11 capital expenditure program for the Crime and Misconduct Commission is \$1.6 million. The Crime and Misconduct Commission will invest \$0.36 million in leasehold improvements, \$0.53 million in vehicle replacements and \$0.74 million on computer and other equipment replacement.

Office Of the Information Commissioner

The 2010-11 capital expenditure program for the Office of the Information Commissioner is \$0.76 million. Office of the Information Commissioner will invest \$0.75 million on leasehold improvements and \$0.01 million on computer and other equipment replacement.

Anti-Discrimination Commission

The 2010-11 capital expenditure program for the Anti-Discrimination Commission Queensland is \$0.03 million. Anti-Discrimination Commission Queensland will invest \$0.03 million on computer and other equipment replacement.

LEGISLATIVE ASSEMBLY OF QUEENSLAND

The 2010-11 capital program of \$2.6 million is principally allocated to capital works projects including the ongoing Parliament House Stonework Restoration Program, replacement of the external toilet facilities on Level 7 of the Parliamentary Annexe, and the cleaning and protection of the exterior of the Parliamentary Annexe building. Funding is also directed to the replacement of Parliamentary Library database management software, and infrastructure to enhance the broadcast of Parliamentary proceedings.

The timelines and costs for the completion of the Program are currently being reviewed with a view to accelerating completion.

OFFICE OF THE GOVERNOR

The Office of the Governor's 2010-11 capital program of \$0.54 million is principally allocated toward a program of renewal of the Office's 15 year old information technology systems, including the financial management system, database and upgrade of the records management system. Funding has also been allocated to minor capital replacements. The ongoing replacement of capital items enables the Governor to undertake the full range of duties expected of the Head of State.

POLICE

The Queensland Police Service (QPS) capital program for 2010-11 is \$217.7 million. This investment will fund infrastructure activities including capital works, information technology and other essential equipment. The QPS is committed to providing a safe and secure environment that supports the Government's Toward Q2 ambitions, particularly Fair - Supporting Safe and Caring Communities.

Program Highlights

- \$50 million is provided for the continued development of the state of the art Queensland Police Academy at Wacol. The Academy is expected to be completed in 2014-15 and will deliver a full range of education and training programs for trainee and operational police.
- \$32.2 million is provided to construct new, refurbished and upgraded facilities across the State to ensure the QPS remains well positioned now and into the future. Key projects for 2010-11 include:
 - \$12.7 million for three new facilities (\$9.4 million for the construction of the new Badu Island Police Station, \$1.3 million for the new forensic facility at Oxley District and \$2 million for the new \$12 million district support facility in Townsville);
 - \$11 million for the upgrade and/or refurbishment of nine facilities; and
 - \$8.3 million for five replacement facilities (Mareeba Police Station and Watchhouse, Murgon Police Station and Watchhouse, Camp Hill Police Station (being built at Carina), Lockhart River Police Station and the Sunshine Coast District Water Police Facility).
- \$50.2 million is provided for information and communication technology projects including Computer Aided Dispatch, Technology Refresh, Digital Integrated Traffic Camera System, new Weapons Licensing System and Telecommunications Interception.
- \$60.1 million is provided for the purchase of new and upgraded operational equipment including vehicles, traffic cameras and marine vessels.
- \$14.6 million has been provided for housing programs which include the Australian Government funded police housing in remote areas.

PREMIER AND CABINET

The estimated 2010-11 capital expenditure for the Department of the Premier and Cabinet including all associated entities is \$121 million.

Department of the Premier and Cabinet

The department's capital budget in 2010-11 of \$10.1 million provides \$1.8 million for the replacement and development of office and information systems that will be applied towards the continued efficient delivery of the department's services, as well as \$1.3 million for the completion of SmartCab which will enhance and improve Cabinet processes.

Funding of \$12 million is being provided over two years by the State and Australian Governments for the capital construction and fit out associated with co-locating the Queensland Symphony Orchestra with the Australian Broadcasting Corporation at South Bank.

South Bank Corporation

The 2010-11 capital works program for the South Bank Corporation is directed at enhancing the visitor experience and the ongoing operational requirements of South Bank Corporation and the Brisbane Convention and Exhibition Centre.

The Brisbane Convention and Exhibition Centre expansion is currently under construction and will result in approximately 24,000 square metres (50%) of additional floor space. Key components of the expanded facility are a 600 seat and a 400 seat tiered plenary hall, breakout rooms, foyer/exhibition space, and ground floor restaurants and retail uses. The total cost of the project will be \$146 million.

Construction has commenced on the Boardwalk site. The new development is expected to be completed in early 2011 and will provide an additional 70 metres of riverfront access, increased green space, as well as a new landscape designed playground and premier dining precinct. The new precinct will include six new tenancies across a range of casual and exclusive dining options at a total cost of \$16.4 million.

Construction has begun on the state and federally funded Stormwater Harvesting and Reuse Centre (SHARC). An estimated 77 mega-litres of stormwater per annum will be harvested, stored and treated (the equivalent of 30 Olympic-sized swimming pools). Once up and running, SHARC will provide up to 90% of the parkland's estimated irrigation demands, as well as progressively supplementing water features and rest rooms when surplus is available. SHARC will also significantly reduce stormwater pollution into the Brisbane River. The total cost of the project will be \$9 million.

Library Board of Queensland

The State Library's capital expenditure for 2010-11 is \$1.4 million. These funds will provide for additional General Reference and Heritage Collections, the replacement of existing equipment and some minor building enhancements.

Queensland Art Gallery

In 2010-11, the Queensland Art Gallery will invest \$2.1 million to purchase works of art for the Gallery's collection. In addition, \$0.2 million will be allocated towards the ongoing replacement of property, plant and equipment.

Queensland Museum

The Queensland Museum has allocated \$4.4 million in 2010-11 towards capital projects including:

- \$2.3 million for the completion of the National Carriage Factory at the Cobb+Co Museum in Toowoomba. The project will deliver a major heritage training, crafts and skills centre, as well as provide an interactive regional tourism experience. Total project cost is estimated to be \$7.3 million, with funding sourced from the State Government, the Queensland Museum Board, sponsorships and donations.
- A \$0.99 million investment in the construction of a humidity controlled storage and conservation facility for key items of the State Collection.
- A provision of \$0.13 million towards the restoration of the "Hunslet" locomotive at the Workshops Rail Museum at North Ipswich.
- A \$0.52 million allocation for the replacement of operational assets such as motor vehicles, exhibitions, computer network and other equipment and State collection items.

Queensland Performing Arts Trust

In 2010-11, the Queensland Performing Arts trust will spend \$0.75 million on ongoing property and equipment replacement including production assets.

PUBLIC WORKS

The department's capital expenditure program for 2010-11, including commercialised business units (CBUs), the Shared Service Agency (SSA) and CorpTech, is \$315.2 million. Capital expenditure by the department, excluding CBUs, SSA and CorpTech is \$114.2 million.

Department of Public Works

Program Highlights

- \$34 million is provided in 2010-11 to continue the construction of a new government office building in First Avenue, Maroochydore. The building will provide 8,600 square metres of net lettable area. The total project cost is estimated at \$79.9 million.
- \$11.9 million is allocated in 2010-11 to continue the construction of a new government office building in Hartley Street, Cairns. The building will provide 9,600 square metres of net lettable area as stage 2 of William McCormack Place. The total project cost is estimated at \$79.5 million.
- \$7.1 million is allocated in 2010-11 for the construction of a new government office building on Thursday Island. The building will provide 1,100 square metres of net lettable area. The total project cost is estimated at \$13.5 million.
- \$6.4 million is provided in 2010-11 for the completion of the site infrastructure works associated with the Boggo Road Precinct redevelopment. The redevelopment provides the infrastructure necessary for the Ecosciences Precinct and for future residential, retail, commercial and recreational facilities that will form the Boggo Road Urban Village. The old Boggo Road Gaol is retained. The total project cost is estimated at \$45.5 million.
- \$5.9 million is allocated in 2010-11 for the completion of a new Joint Contact Centre in Zillmere, Brisbane. The building will accommodate 417 work points for Smart Service Queensland and the Queensland Police Service. The project includes a large photovoltaic array that will generate up to 450 kilowatts of solar energy and offset the greenhouse gas emissions from energy used in the operation of the building. The total project capital cost is estimated at \$47.4 million.
- \$5.5 million is allocated in 2010-11 for the completion of a new government office building and learning centre in Mareeba. The total project capital cost is estimated at \$6.5 million.
- \$15.3 million is allocated in 2010-11 for the construction and upgrade of government employee housing in rural and remote areas.

- QFleet will purchase motor vehicles totalling \$152.9 million. The vehicles will be leased to clients to facilitate the delivery of Government services across Queensland. The vehicle purchases and associated ongoing maintenance provide support for local Queensland firms.
- CITEC, the Queensland Government's primary technology service provider delivering agency-specific information and communication technology (ICT) services, has a capital expenditure program in 2010-11 of \$30.1 million. The components of the program include the progressive delivery upon the consolidation of data centres, networks and infrastructure services across the Queensland Government, the progressive delivery upon a whole-of-Government email system with identity management and authentication capability and Queensland Government digital certificate issuing capability and the acquisition of ICT infrastructure essential for the continued delivery of ICT services to client agencies.

TRANSPORT AND MAIN ROADS

Transport

The Queensland Government is continuing investment in the transport system through the 2010-11 capital expenditure program totalling \$744.3 million. This spend predominantly comprises investment in public transport infrastructure and systems.

Program Highlights

In the 2010-11 Budget, the Queensland Government continues to progress the implementation of the South East Queensland Infrastructure Plan and Program (SEQIPP). Some major projects included in the SEQIPP initiative are:

- \$219 million for the Gold Coast Rapid Transit System, a light rail project from Parkwood to Broadbeach, at a total estimated cost for stage 1 of \$948.7 million
- \$197 million for the \$734.7 million Northern Busway: Enoggera Creek to Kedron project which extends the existing busway from the Royal Brisbane Women's Hospital to Sadlier Street, Kedron
- \$150 million for the \$465.8 million Eastern Busway: Buranda to Coorparoo (Stage 2A) to continue the construction of a 1.05 km busway connection between South East Busway and Main Avenue with bus stations at Stones Corner and Langlands Park.

Other major capital projects are:

- \$20.3 million to continue the construction of cycle links to enhance the cycle network in south east Queensland. This is made up of \$9.4 million towards the construction of state-owned cycle links and \$10.9 million in grants to be provided to local governments
- \$7.1 million towards the construction of new recreational boating facilities. These funds will ensure that future infrastructure demands can be met as the recreational boating population continues to grow.

TransLink Transit Authority

TransLink's capital expenditure program for 2010-11 totals \$59.4 million, which predominantly entails investment in public transport infrastructure across South East Queensland.

Program Highlights

- \$39.1 million to continue the \$213.1 million program for the delivery of new or upgraded bus stations and park 'n' ride facilities, which will improve access to the public transport system across south-east Queensland.

This includes the construction and development of:

- Maroochydore bus station - \$5.2 million
- Algester Park 'n' Ride facility - \$4 million
- Capalaba Park 'n' Ride facility - \$3.4 million
- North Lakes bus station - \$3.4 million
- Enoggera Reservoir Park 'n' Ride facility - \$3.2 million
- Klump Road Park 'n' Ride facility - \$3.2 million.

QR Limited

QR Limited is allocating \$2.772 billion for capital outlays in 2010-11 in Queensland.

Program Highlights

\$446.4 million to upgrade infrastructure and rollingstock on the Citytrain network, as part of the South East Queensland Infrastructure Plan and Program (SEQIPP) including:

- \$155.6 million to continue construction of the Springfield Line from Darra to Richlands and Springfield, at a total estimated cost of \$1.017 billion, with completion brought forward to 2013
- \$174.4 million to continue building 64 new three car-carriage passenger trains to deliver services enhancements across the Citytrain Network
- \$35 million for track duplication and station upgrades of the Keperra to Ferny Grove line, at a total estimated cost of \$80 million
- \$25 million to continue construction of the Corinda to Darra Line: Third Track, at a total estimated cost of \$218.2 million
- \$15.5 million to complete the \$641.1 million project for Citytrain MetTRIP Track Infrastructure Upgrades which includes the duplication of the track between Caboolture and Beerburrum and the Salisbury to Kuraby third track
- \$9.4 million to complete the Metropolitan Freight Capacity Enhancement works, at a total estimated cost of \$84.3 million.

\$864.2 million for coal network track works and new and upgraded locomotives and wagons. All works are to support the haulage of coal in Queensland:

- \$502.2 million to continue the Goonyella to Abbot Point construction, at a total estimated cost of \$830.7 million

- \$19.5 million to complete the Jilalan Yard on the Hay Point line at Sarina. Upgrade including new tracks and new coal wagon maintenance facilities, at a total estimated cost of \$468.3 million
- \$18.6 million to complete the \$31.4 million upgrade works for the Columboola to Fishermans Island Rail project, including re-sleepering, formation strengthening, turnout replacement and timber bridge replacement
- \$14.3 million to complete the overhaul of 12 and 16 Cylinder Locomotives for coal haulage, at a total estimated cost of \$50.8 million
- \$10.2 million to complete the rail duplication of the Coppabella to Ingsdon line, at a total estimated cost of \$75.4 million
- \$9.2 million to complete the Electric Locomotives Upgrade Program, at a total estimated cost of \$172 million
- \$7.6 million to continue the Coal Electric Locomotives Fleet Upgrade - Stages 1 & 2, at a total estimated cost of \$111.2 million
- \$6.8 million to continue the construction of the Vermont Spur and Balloon Loop to service a new mine, at a total estimated cost of \$71.8 million
- \$5.9 million to complete procurement of 10 New Diesel Electric Locomotives (4100 Class), at a total estimated cost of \$74.5 million.

Other major projects are:

- \$66.7 million to continue the infrastructure upgrades and other priority works including replacing sleepers and construction of a new passing loop on the Mt Isa Line, at a total estimated cost of \$101.7 million
- \$54.9 million to complete the construction of 15 new 4100 Class Diesel Locomotives for use on the Mt Isa Line, at a total estimated cost of \$99 million
- \$45.5 million to continue to modify and improve QR facilities and infrastructure for disabled persons, as prescribed by the Disability Discrimination Act 1992 and to modify the Electric, Suburban and Inter-Urban Multiple Unit fleets to meet disability standards for Accessible Public Transport 2007 compliance requirements, at a total estimated cost of \$131.5 million.

Port of Brisbane Corporation Limited

In 2010-11, Port of Brisbane Corporation Limited has allocated \$138.3 million for the continuing development of the Port of Brisbane and predominantly comprises investments in additional berths at Fishermans Island, in order to accommodate development of commodity areas.

Program Highlights

- \$56.7 million to continue construction of berths 11 and 12 at Fishermans Island, to accommodate a third stevedore at the Port of Brisbane, at a total estimated cost of \$272.3 million.
- \$14.5 million to upgrade the major road network at Fishermans Island to accommodate increasing traffic at the port.
- \$12.6 million for asset replacement, acquisitions and minor capital works including replacement of forklifts at Brisbane Multimodal Terminal.
- \$6 million to construct a new port headquarters and refurbishment of the current port office for leasing to new tenants.

Far North Queensland Ports Corporation Limited

In 2010-11, Far North Queensland Ports Corporation Limited has allocated \$20.5 million towards new and continuing seaport development within its ports in Far North Queensland.

Program Highlights

- \$9.3 million to continue the southern extension of the boardwalk and foreshore promenade at the Cairns Cityport, at a total estimated cost of \$17.3 million.
- \$3 million to construct a Maritime Training College at Tingira Street, Cairns.
- \$2 million to complete the construction of a Cruise Terminal Facility at the existing heritage cargo sheds at the Port of Cairns, at a total estimated cost of \$11.2 million.

Gladstone Ports Corporation Limited

In 2010-11, Gladstone Ports Corporation Limited has allocated \$119 million towards the ongoing expansion of the ports at Gladstone, Bundaberg and Rockhampton.

Program Highlights

- \$40.2 million to continue the \$95.3 million capacity improvements and upgrades at the RG Tanna Coal Terminal at the Port of Gladstone.
- \$14 million to commence construction of a new tug facility at the Port of Gladstone, at a total estimated cost of \$47.5 million.
- \$3.1 million to continue dust suppression projects at the RG Tanna Coal Terminal, at a total estimated cost of \$9.8 million.

North Queensland Bulk Ports Corporation Limited

In 2010-11, North Queensland Bulk Ports Corporation Limited has allocated \$123.3 million for various port development projects.

Program Highlights

- \$53.5 million to complete the Abbot Point Coal Terminal X50 expansion to increase the capacity of the terminal to 50 million tonnes per annum, at a total estimated cost of \$818 million.
- \$39.6 million to complete the renewal of coal stockpile machinery for the Abbot Point Coal Terminal, at a total estimated cost of \$68.3 million.
- \$4 million to commence planning for an expansion of the Abbot Point Coal Terminal to a capacity of 230 million tonnes per annum.

Port of Townsville Limited

Port of Townsville Limited has allocated \$72.2 million for plant acquisition, infrastructure development and port improvements for the ports of Townsville and Lucinda during the 2010-11 financial year.

Program Highlights

- \$57.5 million to continue the construction of the Townsville Marine Precinct providing a dedicated marine facility for the local industrial and commercial marine industries, at a total estimated cost of \$95.9 million.
- \$2.7 million to complete the review and upgrade of the existing fire line system, at a total estimated cost of \$5.4 million.

Main Roads

The Queensland Government is committed to delivering a roads program that supports Queensland's growing population, while managing urban traffic growth and congestion. The 2010-11 infrastructure program, which amounts to \$3.276 billion and which includes Queensland Motorways Limited and RoadTek, will help sustain jobs throughout the state and continue the critical infrastructure already underway.

Program Highlights

- \$550 million to continue the federally-funded Ipswich Motorway upgrade, between Dinmore to Goodna, at a total estimated cost of \$1.950 billion.
- \$288 million in state and federal funding, to upgrade the Bruce Highway between Cooroy and Curra (Section B - Sankeys Road to Traveston Road), at a total estimated cost of \$613 million.

- \$117 million to continue Stage 1 of the Centenary Highway duplication, from Darra to the Logan Motorway Interchange, in conjunction with the Darra to Springfield rail extensions, at a total estimated cost of \$414.6 million.
- \$95.9 million to continue the construction of a roundabout on Airport Drive, as part of the Airport Link Project, at a total estimated cost of \$297.3 million.
- \$88 million to commence the two lane extension of the Port of Brisbane Motorway from Lindum Road to Pritchard Street, at a total estimated cost of \$332 million.
- \$56 million in joint state and federal funding, to widen the Pacific Motorway, between Nerang and Worongary, at a total estimated cost of \$158 million.
- \$50 million in joint state and federal funding, to continue the upgrade of the Pacific Motorway between Springwood South and Daisy Hill, at a total estimated cost of \$421.6 million.
- \$48.5 million in joint state and federal funding, to continue the widening to four lanes of the Douglas Arterial, on the Bruce Highway (Townsville Ring Road), at a total estimated cost of \$110 million.
- \$37.6 million towards the completion of the duplication of the Forgan Bridge in Mackay, at a total estimated cost of \$148 million.
- \$30 million for intersection improvements between Ipswich and Withcott, on the Warrego Highway, at a total estimated cost of \$40 million.
- \$29.5 million for the Calliope Range deviation on the Dawson Highway, at a total estimated cost of \$70 million.
- \$20 million to continue the federally funded upgrade of the Bruce Highway between Innisfail and Cairns, at a total estimated cost of \$150 million.
- \$20 million to progress the federally funded upgrade of the Bruce Highway between Ingham and Innisfail, on the Cardwell Range, at a total estimated cost of \$115 million.
- \$18.6 million in federal funding to repair and strengthen a section of the Bruce Highway, in the southbound lane between Brisbane and Gympie, at a total estimated cost of \$22.4 million.
- \$16.8 million for improvements to intersections on the Gatton - Esk Road, between the Warrego Highway and the former Esk Shire boundary, north of Gatton, at a total estimated cost of \$35 million.
- \$14 million to duplicate the Gold Coast Highway from two to four lanes, between Broad Street and Robert Street, Labrador, at a total estimated cost of

\$107 million.

- \$13.7 million in federal funding to continue four-laning works on the Bruce Highway southern approaches to Mackay, at a total estimated cost of \$33.3 million.
- \$8.3 million in joint funding for structural rehabilitation of the Burdekin River Bridge on the Bruce Highway between Bowen and Ayr, at a total estimated cost of \$43.8 million.
- \$8.1 million for widening and sealing works on the New England Highway (Yarraman - Toowoomba), south of Crows Nest, at a total estimated cost of \$10.9 million.
- \$5 million to widen the Labrador - Carrara Road between Melia Court and Smith Street Connection Road, Parkwood, at a total estimated cost of \$132 million.
- \$5 million to continue construction of a new two lane sealed road on the Kennedy Developmental Road, between Hughenden and Winton, at a total estimated cost of \$23 million.
- \$3.9 million to commence construction of bridge and approaches, on the Aramac - Torrens Creek Road Cornish Creek, 68km north of Aramac, at a total estimated cost of \$5.3 million.

Queensland Motorways Limited

Queensland Motorways Limited capital expenditure program for the 2010-11 financial year totals \$347.6 million.

Program Highlights

- \$76.8 million to complete the second Gateway Bridge river crossing and increase capacity on the Gateway Motorway between Mt Gravatt - Capalaba Road and Nudgee Road, at a total estimated cost of \$1.75 billion.
- \$198 million to upgrade, to six lanes, a section of the Gateway Motorway, from Mount Gravatt-Capalaba Road to Miles Platting Road, at a total estimated cost of \$240 million.

TREASURY

The total capital expenditure program for Queensland Treasury in 2010 -11 will be \$5.3 million.

The principal components of Treasury's capital program include:

- \$4.9 million to be allocated to ongoing asset replacement, primarily the replacement of existing IT assets and office equipment
- \$0.4 million for the further implementation and development of the Revenue Management System within the Office of State Revenue. The system employs a contemporary technology to provide revenue and information management and e-business capability to better service the Government and people of Queensland in collecting and administering State tax revenue streams.

APPENDIX B - KEY CONCEPTS AND COVERAGE

COVERAGE OF THE CAPITAL STATEMENT

Under accrual output budgeting, capital is the stock of assets including property, plant and equipment, intangible assets and inventories that an agency owns and/or controls and uses in the delivery of services, as well as capital grants made to other entities. For the purpose of this Budget Paper, capital outlays refer to the gross acquisition of these assets. The following definitions are applicable throughout this document:

- **total capital outlays** – property, plant and equipment outlays, other capital expenditure and capital grants
- **property, plant and equipment outlays** – property, plant and equipment outlays as per the financial statements excluding asset sales, depreciation and revaluations
- **other capital expenditure** – intangibles, such as software development, and self-generating and regenerating assets
- **capital grants** – capital grants to other entities (excluding grants to other Government departments, statutory bodies and individuals under the First Home Owners Grant scheme).

Capital outlays include information for all bodies defined as reporting entities for the purpose of whole-of-Government financial reporting requirements, excluding Public Financial Corporations. Projects without a recorded total estimated cost are ongoing. The entities included in scope for the Capital Statement are listed in Appendix A.

The Capital Statement only provides details of projects being undertaken within Queensland.

CAPITAL CONTINGENCY

Consistent with the approach adopted in previous years, a capital contingency reserve has been included. This reserve recognises that while agencies budget to fully use their capital works allocation, circumstances such as project lead-in times, project management constraints, unexpected weather conditions and capacity constraints such as the supply of labour and materials may prevent full usage. On a whole-of-Government basis, there is likely to be underspending, resulting in a carryover of capital allocations.

APPENDIX C – METHODOLOGY FOR ESTIMATING EMPLOYMENT IMPACTS OF THE CAPITAL WORKS PROGRAM

It is estimated that the 2010-11 capital program will support approximately 106,000 full time jobs. This estimate is developed using methodology published by the Office of Economic and Statistical Research.

The estimate relates to employment *supported* rather than *additional* employment. In certain economic circumstances, such as when the economy is weak and unemployment is high, the *additional* employment generated by the capital program may be commensurate with employment *supported*. However, when the economy is strong and capacity constraints exist, it is likely that workers employed on State capital works program projects would be able to find employment elsewhere.

The capital works program consists of purchases of new non-financial assets and selected capital transfers by the State non-financial sector.

The estimate of the level of employment supported incorporates employment in the construction industry together with employment supported in the industries that supply goods and services to the construction industry and, in turn, the industries that supply these industries. For example, it includes employment on State construction projects together with employment supported in the ready mixed concrete industry which in turn supports employment in the quarry supplying sand to the ready mixed concrete industry. Land purchases are excluded as they represent a transfer of property title and are not associated with significant employment. Plant and equipment purchases are also excluded as much of it is imported.

The estimate is limited to measuring the *contribution* to employment made by expenditure on the capital works program. For this reason it does not measure what might be described as induced consumption effects, such as the effects of the income spent in retail and housing industries by workers employed on State construction projects.

To estimate the full-time equivalent employment supported by this program, data from the latest available Queensland Input-Output Table were used to estimate the contribution of the State capital works program to total employment in Queensland in a specific year.

This figure is then expressed in terms of full-time equivalents per million dollars spent and applied to the program at the aggregate level.

Over time, the number of full-time equivalents supported per million dollars spent will decline as construction prices (including labour) increase. Construction prices have on average increased by 4.9 per cent per annum over the last twelve years. The estimate is therefore adjusted for these observed movements and for projected movements in construction prices.

For the 2010-11 program onwards, the Office of Economic and Statistical Research has made a further adjustment to allow for movements in labour productivity. Labour productivity in the Queensland construction industry and the industries that supply goods and services to the construction industry have, on average, improved by 1.3 per cent per annum over the last twelve years.

When these price and labour productivity changes have been accounted for, each \$1 million of the construction component of the capital works program is estimated to support employment of 6.74 full-time equivalents in 2010-11.

The methodology used to determine the employment impacts of the Queensland State capital works program produces an estimate that is in the mid range of estimates produced by other state Treasuries.
